| Are you patriotic? What does being patriotic mean to you?

Tbh...I'm not...being patriotic on what? Country! Language! Culture! Or what?... I think little extern of patriotic leads to discrimination... I remember a movie dialog tells that "being patriotic on caste, rascism or religion is sin but having patriotic on country, language or culture makes an individual as proud!"... Really?...

I might wrong...bt my view...killing someone for the name of caste and killing someone for the country are same... People might say to protect us, to save us from terrorism anything might be... Same they would say right!... I don't mean people should not have protritism...

I just say... whatever no one should down others to make someone or something higher... "Hurtig, harming, hating" by the name of patriotic on anything could not be accepted...

Apart from everything patriotic on "Humanity" should win...
